

2009 Environmental Lenten Worship Resource

Option for Palm Sunday

As we recall Jesus' entry into Jerusalem in our own celebratory processions with palm fronds, a great way to incorporate our creation care awareness is to choose "Eco Palms," rather than the standard commercially available ones. Lutheran World Relief partners with communities in Guatemala and Mexico in an initiative that promotes fair trade, justice, and the care of local forests. See www.lwr.org/palms for the full story and more information on ordering.

Perhaps your congregation could join with others nearby, to sponsor a bulk order next year.
