

MILLIONS FREED FROM THE CHAINS OF DEBT & GLOBAL POVERTY

In the world's most impoverished countries, resources are diverted away from citizens' basic needs and used to pay debt service to rich countries and institutions.

Even after the life-saving debt relief provided to date, the poorest countries still send \$100 million every day out to our government and international institutions in debt payments.

The Jubilee Act would cancel the debts of the countries who need it most, ensure transparency and accountability, and support responsible financing in the future.

Please support the Jubilee Act and ensure that Congress works to make real change in fighting poverty around the world in 2010.

Sincerely,

**Evangelical Lutheran
Church in America**

God's work. Our hands.
